

Family-guided Activity Based Intervention

Juliann Woods, Ph.D. CCC-SLP

Department of Communication Disorders

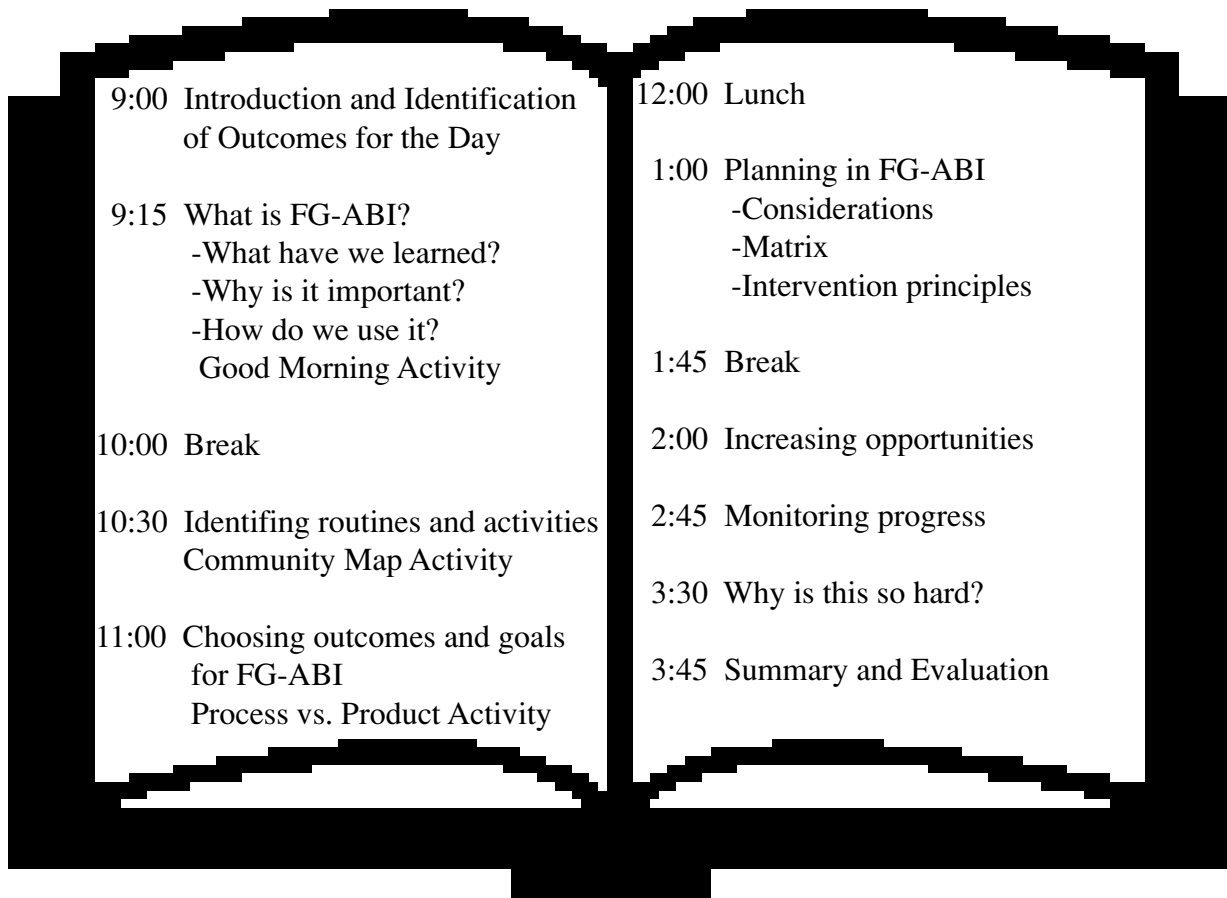

Florida State University

Training Outcomes

Participants will:

1. Gain knowledge of second generation family-guided activity based intervention approaches for young children.
2. Identify components of developmentally appropriate goals, objectives, and outcomes important for activity based teaching and learning.
3. Increase diversity of routines and activities for intervention.
4. Increase knowledge of intervention planning and strategies to FG-ABI.

Training Schedule

9:00 Introduction and Identification of Outcomes for the Day	12:00 Lunch
9:15 What is FG-ABI? -What have we learned? -Why is it important? -How do we use it? Good Morning Activity	1:00 Planning in FG-ABI -Considerations -Matrix -Intervention principles
10:00 Break	1:45 Break
10:30 Identifying routines and activities Community Map Activity	2:00 Increasing opportunities
11:00 Choosing outcomes and goals for FG-ABI Process vs. Product Activity	2:45 Monitoring progress
	3:30 Why is this so hard?
	3:45 Summary and Evaluation
